

# ON THE ROAD WITH LTAP

An interactive map is included each issue of the Nebraska LTAP e-newsletter to illustrate where LTAP events have recently happened or are happening in coming weeks. It aims to help clients see our coverage of the state, plan to attend events in their area, for shop visits, and for technical assistance needs. Each map point provides event, dates, location, registration link, and which LTAP personnel will be there. LTAP loan equipment is also represented.

**DIY** YOURSELF  
Do It Yourself

1. Create a spreadsheet with fields representing information to share. The location needs to be an accurate street address.
2. Save as a .csv.
3. Open a new map in arcgis.com.
4. Add >> Add Layer from File >> .csv file.
5. Follow prompts to assign fields.
6. Format symbols and layers.
7. Publish to a map service.
8. Customize the story map.
9. Share the map.
